CAREER OBJECTIVE

Motivated and detail-oriented Computer Science student seeking an role in IT/Software Development where I can apply my technical skills, contribute to impactful projects, and grow within a dynamic organization

EDUCATION

Bachelor of Technology in Computer Science

Sasi Institute of Technology and Engineering, Tadepalligudem

CGPA: 8.56 | 2023 – Present

Intermediate (MPC)

Aditya Junior College, Tadepalligudem

Score: 928/1000 | 2021 – 2023

INTERNSHIP EXPERIENCE

Technical Intern (Paid) | [LINK](#)

StartupVisors | Sep 2025 – Jan 2026

- Developed a Due Diligence Report Generator with structured data processing and server-side PDF generation for downloadable professional reports.
- Independently designed and developed the AI Career Tools WordPress Plugin end-to-end, including system architecture, backend logic, database structure, and deployment.
- Worked on Shopify app development, third-party integrations, and Google Sign-In authentication for secure user access.
- Built and contributed to full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js).

PROJECTS

Spring Boot Microservices E-Commerce Platform | [Backend Repo](#) | [Frontend Repo](#)

- Developed a production-style e-commerce platform using Spring Boot microservices architecture with JWT authentication, role-based authorization, Eureka service discovery, API Gateway routing, Feign-based service communication, Redis cart caching, Docker containerization, and React frontend integration for end-to-end workflow management.

Tech: Java, Spring Boot, Spring Security, JWT, MySQL, Redis, Docker, Spring Cloud Gateway, Eureka Server, OpenFeign, React.js, Vite [Project Screenshots](#)

Food Ordering System | [GitHub](#)

- Developed a distributed food ordering backend using Spring Boot microservices architecture with separate User, Restaurant, and Order services, API Gateway routing, Dockerized deployment, and isolated MySQL databases for each service to understand service separation and scalable backend system design.

Tech: Java, Spring Boot, Spring Cloud Gateway, MySQL, Docker, Docker Compose, REST APIs, Microservices

Ride Booking System Backend | [GitHub](#)

- Built a microservices-based ride booking system (SuziRide) using Java Spring Boot, consisting of Auth Service, Driver Service, Ride Service, and Eureka Service Discovery. Implemented JWT authentication, inter-service communication using OpenFeign, and MySQL-based distributed data management. Developed complete ride lifecycle logic including booking, driver matching, accept/reject locking mechanism, fare calculation, ride completion, and driver rating system.

Tech: Spring Boot, Spring Security, JWT, Spring Data JPA, Microservices, REST APIs, OpenFeign, Eureka Server, MySQL

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Frontend Technologies:** HTML, CSS, Tailwind CSS, React.js, Vite, Next.js
- **Backend Technologies:** Spring Boot, Spring Security, Microservices Architecture, Node.js, Express.js
- **Databases:** MySQL, MongoDB,
- **APIs & Authentication:** REST APIs, JWT Authentication, Role-Based Access Control
- **Cloud & DevOps:** Docker, Docker Compose, API Gateway, Eureka Server, OpenFeign Client
- **Familiar With:** Kafka, System Design Basics, Redis
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, IntelliJ IDEA, Figma

ACHIEVEMENTS & CERTIFICATIONS

- 2 Star Coder – Codechef
- Infosys Spring Essentials
- Introduction to MongoDB – MongoDB University
- 8-Week React.js Certification – GeeksforGeeks
- Cloud Infrastructure Foundations – Oracle University
- 2-Week Offline MERN Stack Workshop – Purplane
- Participated in 24-Hour Hackathon – NIT Andhra Pradesh (FORGE ALUMNUS)
